

PRODUCT CARE + MAINTENANCE

Evoke floors have a durable finish that is designed to provide years of protection and easy care. Some simple care and maintenance procedures will help to keep your Evoke floor looking its best and help to protect it from unnecessary wear and damage.

- Sweep or vacuum the floor regularly to keep it clean and free of dust, sand and other abrasive materials.
- Place area rugs or doormats at entryways to help prevent sand, grit, oils, dirt and other abrasive materials from being tracked onto the floor surface from outdoors.
- Place protective mats at high-use work areas such as sinks, ranges, service counters and workstations.
- Protect the floor from any exposure to liquids, water and other forms of moisture. Blot up any spilled food, drink or other liquid immediately. Under no circumstances allow liquid to remain on the floor longer than 30 minutes. Never wet mop the floor when cleaning. Avoid walking on the floor with wet feet or footwear. Put trays under potted plants. Damage caused by flooding, broken pipes, wet mopping or any other exposure to liquid or moisture is not covered by the product warranty.
- Ensure that environmental conditions are maintained with a temperature of 65-75°F (18-24°C) and humidity at 30-50% at all times. Because it is made from wood-based products, evoke flooring reacts to changes in the environment. Problems resulting from exposure to improper environmental conditions are not covered by the product warranty.
- If the floor is installed over a radiant heating system, never allow the surface temperature of the floor to exceed 82°F (28°C). Avoid dramatic temperature changes; always adjust the system gradually in 5° increments. It is recommended that a dedicated quick recovery thermostat be installed to allow the temperature of the radiant heating system to be accurately controlled.
- Put felt protector pads on the feet of all furniture, display stands, file cabinets and other accessories that will be placed directly onto the floor surface. Inspect regularly for wear and replace as necessary.
- Avoid letting sharp or pointed objects come into contact with the floor surface.

CLEANING

- Sweep or vacuum the floor regularly to keep it free of dust, grit and other abrasive materials.
- Blot up any food, drink or liquid spills immediately. Under no circumstances allow liquid to remain on the floor longer than 30 minutes.
- For more thorough cleaning, use Therapy by Kentwood Spray Cleanser (available at your Evoke dealer) or other floor cleaning solution approved for use with laminate flooring.
- Do not use any household cleaners, oils, soaps, waxes or any abrasive materials or scouring agents on the floor.
- Do not use steam cleaners, wet mops or other pre-moistened cleaning aids on the floor.

Failure to follow these instructions may void the product warranty.
